

WOW Norway

„C3=ENVIRONMENTAL EDUCATION in COVID TIMES”

What have we done:

- When we opened our kindergartens again we had strict rules to follow. We stayed in very small groups of children with 1 adult. We were not allowed to cross each others groups
- Therefor we did no Erasmus activities in the start
- We restarted the project, and started on the topic REDUCE in January 2021. We managed to complete our activities in Reduce, Recycle/Reuse and we have started on our last topic Root
- The age of the children are 1-3 years old

REDUCE

- There were some thing we could not do the way we planned due to Covid. We tried to inform the parents on the topics, and we tried to encourage them to reduce their consumption
- We focused on activities in the kindergarten.

Pictures from our work - REDUCE

RECYCLE/REUSE

- We had to modify some of these activities. Ex. We would have arranged a flea market as an activity in an event with the parents. But... covid set a stop to that. Maybe in 2030???
- BUT, we have worked hard and had a lot of nice moments with the youngest one

Pictures from our work – RECYCLE/REUSE

ROOT

- YEY... WE GOT OUR FLAG!
- We have been approved for ECO-School certification
- We will hoist the flag when you come to visit us in February!
- Thank you for your attention
