

Our kindergarten has been once again awarded the Green Flag certificate in Eco-Schools programme.

To achieve it, amongst others, we:

- created a group of people engaged in the project
- conducted an ecological audit
- created an ecological codex
- planned and performed various actions, which were rated at the end

# Pro-ecological classes

# Preparation of sensorical pathways from waste and natural materials

Clean the World event under theme of „I think, therefore, I do not litter”.

**The usage of waste materials for creation of spring gardens**

„Wiosenna Eko-  
rzeźba (Spring  
Eco-sculpture)”  
contest

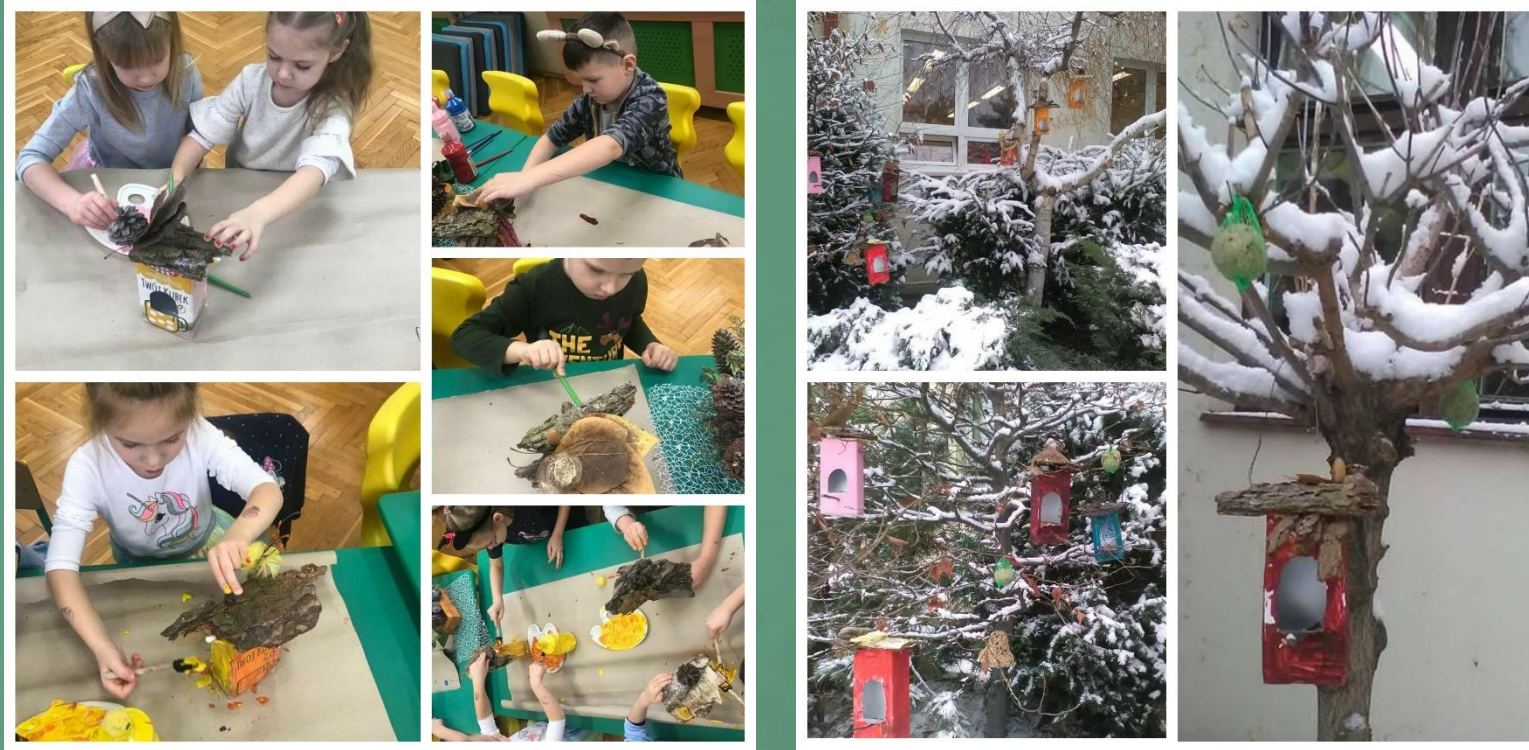

Wiosenna  
**EKO RZEŹBA**

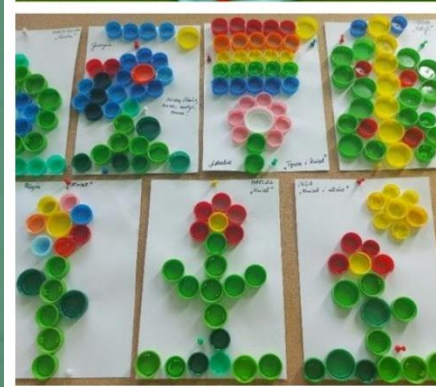

# The use of waste materials in creation of artistic instalations and projects

„Composting is waste reduction!”

# Physical results of work

Colour coded containers for waste management in classes, recycling areas, educational boards representing the rules of waste recycling

# Promotion green actions in the local area - „Yard sale”

# Informing and engaging others into action

# Establishing the Eco-Codex
