

PREPARATIONS for WOW

September 2019-February 2020

Kezban Mercan Anaokulu, TURKEY

Our ERASMUS CORNER

We have created our RUBBISH FAMILY

Our Flea Market in the Kindergarten

Energy Saving Week-Turkey

06-12th January is the Energy Saving Week in Turkey. We have organized some activities to raise our children's awareness on how to save energy with our efforts

Getting ready for a trip to discover waste

ECO SCHOOL PROGRAM

Expert visit from the Municipality

Thanks to our Municipality's expert. Children have learned alot about waste and recycling and had fun as well😊

WATER is LIFE for the Plants

What is the difference?

We buried different types of materials such as plastic, glass, paper, organic and battery in the soil and observed the process.

Memory Game

We designed
this game
out of
recycled
materials

We made Cushions out of Recycled Textile

Our Recycled Hut in the garden

We have not forgotten the birds living in our school garden in this cold weather

**Look at the
birdhouses
we made out
of plastic
bottles and
cardboards**

We have grown herbs for tea and lovely flowers and in the plastic bottles, glasses or other recycled materials

We know COMPOST is good for Nature

The fastest COMPOSTER: The geese in the kindergarten, we feed them with food waste

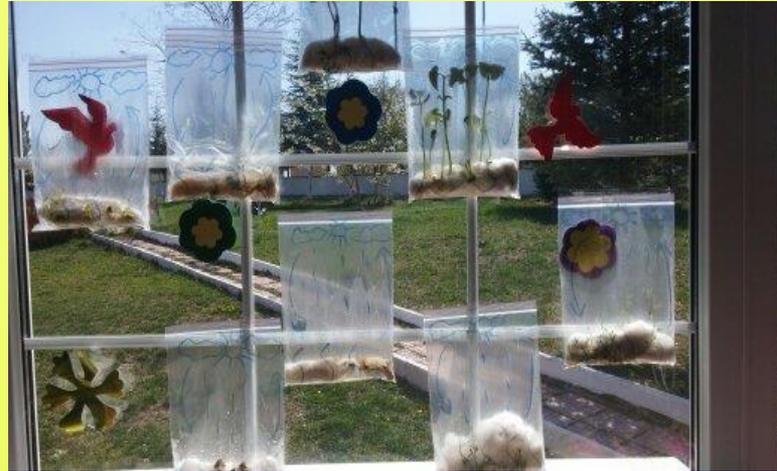

With Collaborative work, we have made some recycled toys

We have organized a Special Container for Recycled Batteries

Water is vital for living beings: humans, animals and plants

**What if we
donot
water
the
plants**

Unfortunately, we do not have Jericho Dinosaur

***Because, people are not
allowed to grow, buy or sell
this Plant in Turkey☹***

SORRY

Thank You

Project Team, Kezban Mercan Anaokulu, 2020
