# Our Kindergarten

# Our kindergarten encourages children to work on Science activities

Thanks to our ECO-programs: we go on trips, get to know nature, discover, experiment and have fun on the new didactic path

**We regularly visit Anıtkabir**

**OUR TRIPS - we try to show children interesting museums in Ankara, sometimes with Drama, etc..**

## Sport, recreation and physical activity.

Our children love taking part in sports competitions, during which they compete with each other. We care about health, safety and promote an active lifestyle.

**We work with the methods of small projects**

[f](#) [t](#) [i](#) [y](#) /DeryaOncuKoleji

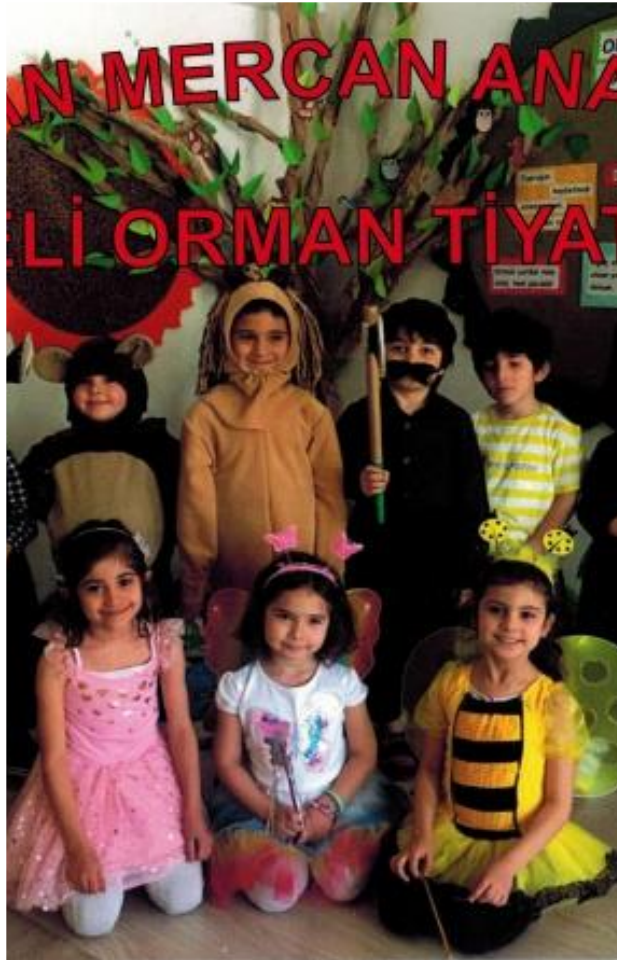

**We teach children programming and coding, searching for solutions, creativity and using ICT.**

# ,A small European'

we will let children become familiar with European countries, their traditions, monuments, interesting places and even flavors with this project

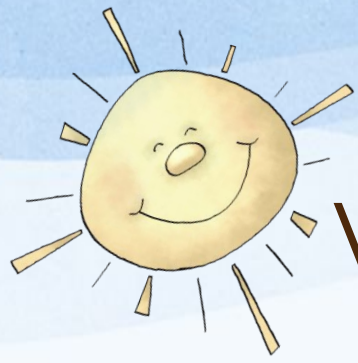

Erasmus+

## WE PLAY THE THEATRE

Every year, each group prepares a performance which we later perform on the variety of festivals and other events.

# We use our parents' activities

Play time with  
parents  
We try parents to  
join our  
kindergarten life  
that is why we  
invite them to  
different events,  
festivals and  
activities.

Erasmus+

**We have taken part in 2 projects  
this year.**

**NATURE LOVING KIDS-N.L.K.**

**WONDERS OF WASTE-W.O.W.**

# Our eTwinning project

We support children being physically active outside and let them have direct experiences in nature, so, these children will be more healthy and active. The project aims to help children learn with nature and everything inside it.

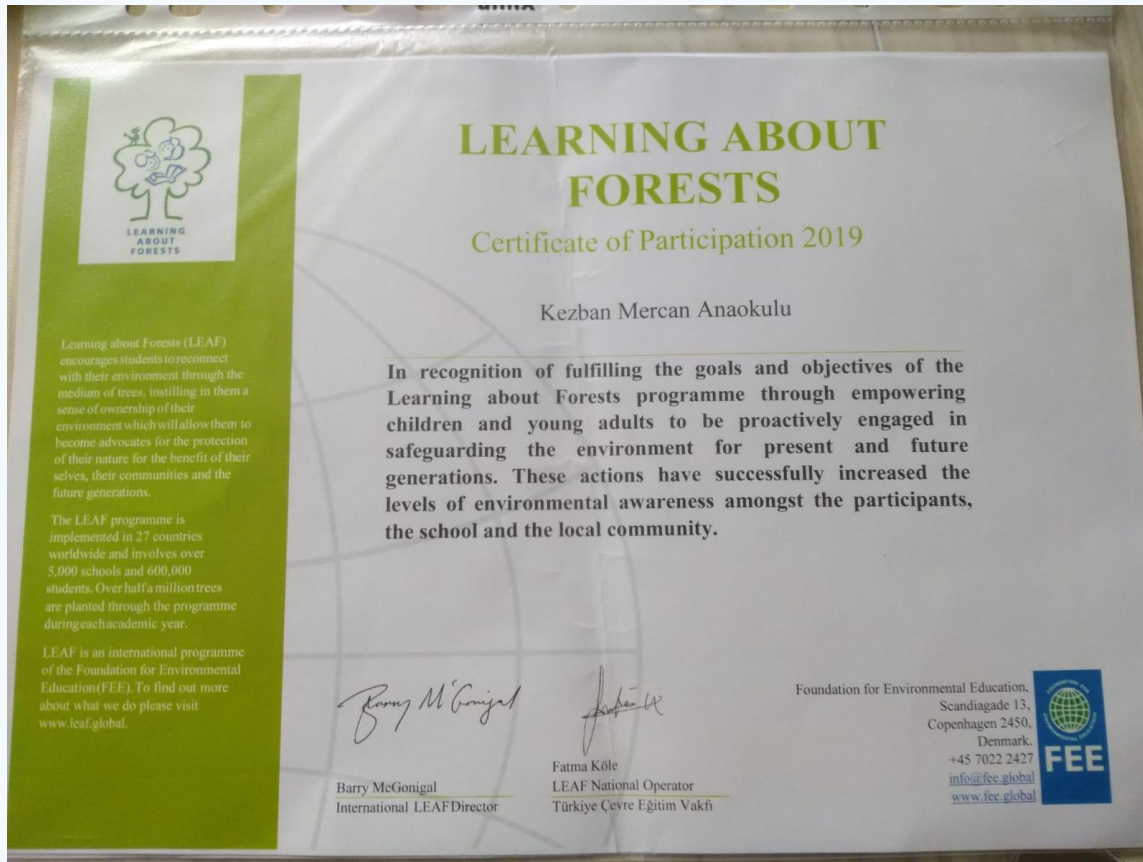

# We are ECO-SCHOOL with 2Green Flags

2016-2017

2018-2019

# We are interested in Forest Schools

**THE END**
